What is Biolog?

Biolog is a mobile attendance and site-visit tracking app for field workers and sales agents. Clock in/out, log client visits (with photo + GPS location), view your activity calendar, and export attendance reports — all in one app. It works without internet (offline mode) and automatically syncs when signal returns.

Bottom Bar Navigation

Home

Dashboard: status, quick actions, today's activity, monthly attendance

Calendar

Monthly view; schedule a meeting or activity

+ Center Button

Quickly log an activity / site visit

Reports

Attendance summary, export to Excel, date range filter

Profile

Account info, settings, biometrics, logout

Pin Button (lower right)

Quickly Submit a GPS Report

REMINDER: Every clock-in and site visit has a photo and GPS location attached. Your supervisor sees these along with the timestamp. Make sure the photo is clear and the location is correct before submitting.

Home Dashboard — main screen after login

1

Getting Started: Register, Login & Forgot Password

1.1 Register (Create Account)

- 1 On Login screen, tap **Sign Up** at the bottom
- 2 Choose *Continue with Google* or *Sign up with Email*
- 3 Fill in First Name, Last Name, Email Address
- 4 Create a Password (min 6 chars) & Confirm — aim for **Strong** (letters, numbers, symbols)
- 5 Fill in Department, Company (optional), Reference / Employee ID
- 6 Tap **Create Account**. New accounts are **pending** until admin approves.

WARNING: Never share your OTP verification code with anyone — not even the admin. The Biolog team will never ask for it.

Create Account form

Login screen

1.2 Log In

- 1 Open app, type Email + Password (tap eye icon to reveal)
- 2 Tap **Sign In** - optional: tick *Remember me*
- 3 Fingerprint / biometrics login if set up on your phone

TIP: Fingerprint login needs internet. When offline, use Email/Password.

1.3 Forgot Password — 4 Steps

- 1 Tap **Forgot password?** → verify email → *Send Verification Code*
- 2 Enter the 6-digit OTP from your email (check Spam / Junk folder)
- 3 Create & confirm a new Strong password
- 4 Success! Tap *Back to Login* and sign in with the new password

Step 4 — Done!

Daily Use: Clock In / Out & Site Visit

2.1 Home Dashboard Parts

- **Current Status card** — time, date, shift (08:00–17:00), On Duty / NOT IN, Clock In/Out button
- **Admin Announcement** — reminders from admin
- **Quick Actions** — Site Visit, Calendar, Reports, Timesheet, Submit GPS Report
- **Today's Activity** — all logs today with time & location
- **Monthly Attendance** — progress bar + missing-days hint

2.2 Clock In

- 1 Tap **Clock In Now** (mint) or center + button
- 2 Photo verification: point camera at your face, tap capture (3s countdown)
- 3 Wait for **DETECTED LOCATION** — Retry or Set manually if wrong
- 4 If a site visit is still open, log its Time Out first
- 5 Tap **Confirm Clock In** — status becomes On Duty (button turns orange)

Clock In / Out sheet (photo + location)

Site Visit Log

2.3 Clock Out

- 1 Tap the orange **Clock Out** button
- 2 Take another photo + verify location
- 3 Tap **Confirm Clock Out**

REMINDER: A "Late arrival" flag records the real time and cannot be changed. If you have a valid reason, submit a GPS Report or message your supervisor.

2.4 Log a Site Visit

- 1 Home → Quick Actions → **Site Visit** (or center +)
- 2 Check the *Next action* (Time In / Time Out)
- 3 Take a photo at the site — "Photo captured successfully"
- 4 Choose New / Existing Client, add optional Remarks
- 5 Verify location, then **Submit**

WARNING: Every site visit has Time In AND Time Out. Never leave without logging Time Out — your hours will not match on the timesheet.

Calendar & Meeting Scheduling

3.1 View the Calendar

- **Stats row** — Present, Absent, Visits, Rate for the month
- **Month grid** — colored dots: Present / Visit / Meeting; tap a day
- **Filter chips** — All / Login / Logout / Site Visit / Meeting
- **Today timeline** — hour-by-hour log with location; tap any entry for **Event Details** (photo, exact GPS, Download button)

3.2 Schedule a Meeting

- 1 Calendar → **Schedule Activity** (or + next to Today)
- 2 Fill in title, start/end date-time, manager, company, location (Office / Zoom / Client Site), remarks
- 3 Tap **Schedule Meeting** — appears on calendar; editable anytime

Calendar view (stats, grid, timeline)

Event Details (photo + exact GPS)

Reports & Timesheet

4.1 Attendance Reports

- **Date Range** — This Month / Last Month / Last 30 Days / Custom
- **Filter by Email** — for supervisors: pick an agent or All
- **Export to Excel** — one tap download
- **Attendance Rate ring** — % + breakdown + missing-days hint
- **Stat cards** — Present (of 22 work days), Absent, Site Visits
- **Activity Breakdown** — progress bars; unmatched clock-in warning

4.2 Timesheet

Total Hours

Hours
logged
this
week

Total Late

Late
minutes
(in
hours)

Undertime

Missing hours

Overtime

Excess
hours

Attendance Reports

Timesheet (hours, late, undertime, OT)

- 1 Tap **Select Date Range** to pick a week
- 2 Use *Search by name* (supervisors)
- 3 Scroll the Timesheet Summary table horizontally (Mon–Sun)
- 4 Tap **Export** to download as file

5

Offline Mode & GPS Report

5.1 Offline Mode

- 1 No signal? Log normally anyway — an “offline” indicator appears
- 2 Logs are saved on your phone automatically
- 3 Check pending logs: pin button → **Offline Queue**
- 4 When signal returns, tap **Sync now**
- 5 Make sure it says “Synced” before logging out

5.2 Submit GPS Report

Use this when you logged a visit offline and it needs admin verification. Add a clear reason + at least one photo for fast approval.

- 1 Home → Quick Actions → **Submit GPS Report** (or pin button)
- 2 **Site Photos**: upload up to 5 photos as proof
- 3 **Time Period**: set Login & Logout dates
- 4 **GPS Location**: tap Capture GPS Location
- 5 **Remarks / Reason**: explain the offline situation
- 6 Tap **Submit GPS Report** — wait for admin approval

Submit GPS Report form

Profile & Settings

6.1 Account Information

Avatar, Name, Role, ID, Zone, Email, Phone, Shift. If anything is wrong, contact your admin to update it.

6.2 Key Settings to Configure

Notifications

Turn ON — clock-in reminders & shift alerts

Notification Email

Add one for reminders even without mobile data

Countdown Timer

3s / 5s / 10s / 15s / 30s before capture (default 3s)

Face Verification

Require face match when clocking in (anti-spoofing)

Face Registration

Update if appearance changed (glasses, hairstyle)

Fingerprint / Biometrics

Quick login — registered on this device

Add to Home Screen

Install as full-screen app (opens faster)

Offline Data Sync

Ensure "Synced" before logging out

Profile & Settings (top)

Profile & Settings (bottom)

FAQ & Troubleshooting

1. Cannot log in ("invalid credentials")

Check email + password (tap eye icon). If forgotten, use Forgot password? → OTP reset. If it is a new account, make sure the admin already approved it.

2. OTP code is not arriving

Check the Spam folder. Tap Resend code after the countdown. Make sure the email is correct.

3. Clock In / Site Visit won't submit

A photo is required before submitting. Make sure "Photo captured successfully" appears and camera permission is on.

4. Wrong detected location

Tap Retry location or Set manually. Turn on your phone's GPS and go to an open area (not inside a building with weak signal).

5. Warning: "1 site visit is still open"

A previous site visit has no Time Out. Log its Time Out first before clocking out — otherwise your hours will not match.

6. Low attendance rate (5–9%)

Normal if you just started or have many absences. Check the hint ("21 days missing...") and review your timesheet. Log missed clock-ins via GPS Report if you have a valid reason.

7. No internet in the field

Still log normally — saved on the phone. When signal returns, open Offline Queue → Sync now. Ensure "Synced" before logging out.

8. Face verification failed

Make sure the area is well-lit and your face faces the camera. If you wear glasses / changed hairstyle, update Face Registration in Profile.

9. Cannot export to Excel

Check the date range and email filter. Make sure there are records for the selected date. If nothing appears, refresh or restart the app.

10. Marked "Late arrival" even though early

Based on the server's detected time. If there is a discrepancy, submit a GPS Report with an explanation and evidence (photo + GPS) for admin review.

Quick Reference Card

Print or screenshot this page for fast reference.

Clock In

Home → Clock In Now → photo → verify location → Confirm Clock In

Clock Out

Home → Clock Out (orange) → photo → location → Confirm Clock Out

Log a Site Visit

Home → Site Visit → photo → New/Existing Client → remarks → location → Submit

Schedule a Meeting

Calendar → Schedule Activity → fill in details → Schedule Meeting

Export Reports

Reports → choose Date Range → Export to Excel

Submit GPS Report (offline)

Home → Submit GPS Report → photos + time + GPS + reason → Submit

Sync offline logs

Pin button → Offline Queue → Sync now

Reset password

Login → Forgot password? → email → OTP → new password

Turn on reminders

Profile → Notifications → ON; add a Notification Email

Contact support

Profile → Help & Support

Glossary

Clock In / Out — Recording the start and end of a shift (with photo + GPS).

Site Visit — Visiting a client; has Time In and Time Out, photo, and GPS.

OTP — One-Time Password; 6-digit code sent to email for verification & password reset.

GPS Report — Offline attendance verification reviewed by the admin.

Offline Queue — Logs saved on the phone while offline; need to be synced.

Timesheet — Record of hours: total hours, late, undertime, overtime.

Pending (account) — New account waiting for admin approval before it can log in.

Face Verification — Biometric face match required when clocking in (anti-spoofing).

This manual is based on Biolog v2.4 (October 2026) with actual app screenshots. Some parts may change in future updates. For the latest guide, contact your admin or check the in-app Help & Support section.
